Regards,

Eric M. Daly

On-Scene Coordinator/Radiological Response Specialist

US Environmental Protection Agency- Region II

ERRD/RPB/PPS

2890 Woodbridge Avenue

Edison, NJ 08837

daly.eric@epa.gov

732-321-4350

From June 08, 2017 through July 15, 2017 the following tasks/events occurred:

Gamma survey results showed background levels at Area 6 & 7 residences with the exception of Area 7 garage concrete floor.

All radon results obtained from the residences at Areas 5, 6, & 7 were below action limits.

Throughout this time range, OSC Lisichenko has overseen Weston analyzing the HTC soil/slag samples via the HPGe.

Anticipated Activities:

EPA activities at the Niagara County Sites have been suspended for the time being due to the uncertainty with the current budget situation. Funding to complete all of the work, rather than incremental funding, is preferred in order to avoid shutdown and start-up costs, security costs and other maintenance costs that would accrue in between periods of work.

Two identified piles of slag within Areas 2 and 4 will be fenced during the time range of July 31, 2017-August 11, 2017.

EPA anticipates returning to Niagara County site work in Spring 2018 at the earliest.

USEPA has been coordinating with NYS, Niagara County and local representatives throughout the assessment/removal process.

Personnel On-Site:

OSC Lisichenko

Weston: One Technician
